# HAINES FLOWER SEED NOVELTIES FOR 1933

## AGAPANTHUS THE BLUE LILY OF THE NILE

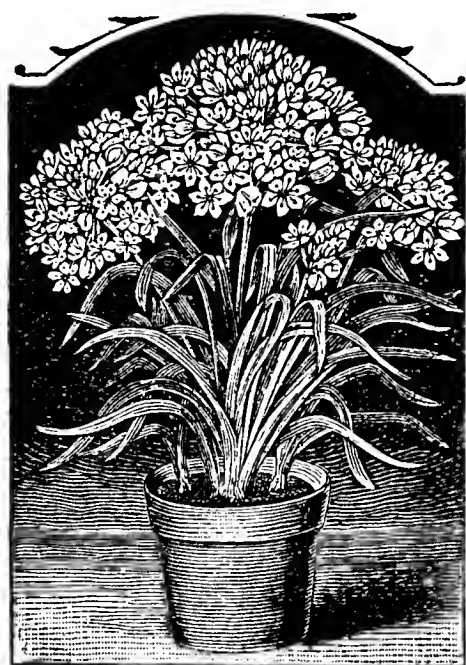

One of the most ornamental specimen plants you can have on the lawn. Pots or tubs of this charming Blue Lily with its large clusters of flowers are most beautiful. Not hardy in the North. Start seed inside, setting outside when the weather is warm. **Pkt., 15c; 1-8 oz., 52c.**

**Lily of the Nile**

## ASTER—INDIAN SUMMER

This is the very newest in Asters and I am quoting the originator's description. A new Aster of distinctly Crego type with blooms measuring 4½ to 5 inches in diameter. Its color is identical with the favorite continental color, cinnabar. The flowers are very double with attractively curled and twisted petals. **Pkt., 25c.**

## TEXAS BLUE BONNET

A native of the Southern states but easily grown anywhere. The flowers grow freely producing nice long terminal spikes of light blue making fine cut flowers as well as showy flower beds. They are without question the finest of the entire Lupins family. **Pkt., 10c; 1-8 oz., 22c; 1-2 oz., 65c.**

## CELOSIA—LILLIPUT MIXED

Something entirely new and distinct. Large plumes on miniature plants which are often only 8 inches in height. **Blue Bonnet**

## CENTAUREA SNAVE- OLENS

This is a new variety of the Imperialis type of Centaureas and is a fine straw yellow color. This flower attracted more admiration at the Chicago Garden Show on the Pier last Spring than any other variety. **Pkt., 10c; 1-8 oz., 18c; 1-2 oz., 50c.**

**Annual Canterbury Bells**

## CANTERBURY BELLS—ANNUAL

No more trouble with waiting two years for the Biennial variety to come into flower. This new annual strain, now offered for the first time, will blossom early in the summer from spring sown seed. Same beautiful colors and attractive appearance as the older variety. **Pkt., 25c.**

**Celosia Lilliput**

**DOUBLE ROSY MORN.** Just what you have been waiting for. The true Rosy Morn color in a double flower. Flowers are of medium size semi-double with heavy petals folding back from the center. Its glorious salmon-rose color and delightful fragrance, make it a great favorite everywhere. **Pkt. 75 seeds, 15c; 1-8 oz., 36c, postpaid.**

## VERBENA—BEAUTY OF OXFORD

For the first time I am able to offer seed of this beautiful flower, which until this year, could be grown from cuttings only. Another feature is their extended period of bloom, the plants remaining in flower much longer than any other Asters I know of. Flowers are unusually large and beautiful with petals tightly curled over the entire flower. New Balcony Petunia

## HAINES BEAUTIFUL PETUNIAS GIANTS OF CALIFORNIA

**A California Variety of Great Beauty, Size and Luxuriance**

The flowers are of immense size, often measuring 5 to 6 inches across. The variety of colors, markings, veinings and blotchings distinguish them from all others. They are usually ruffled and fringed on the edges, and present a great variety of beautiful colors. With the exception of Haines Invincible Petunia, this is the finest Petunia ever grown. Equally desirable in the house or grown in beds out of doors. Seed is very fine and care must be used not to plant the seed too deep. **Pkt., 150 seeds, 12c.**

### STAR OF CALIFORNIA

**Velvety Purple Shaded Crimson, with a Star-Shaped White Blotch**

This is an outstanding variety of the Balcony type, but with the size and beauty of the California Giants. For window boxes, hanging baskets, and vases, this is what you have been waiting for. The stems are almost completely covered with rich purplish flowers, which are glorified with a sheen of crimson; but the crowning feature is the pure white star in the form of a blotch in the throat of each blossom. The branches are extra long, and hang over the edge of the box or vase, presenting a beautiful appearance. **Pkt., 150 seeds, 15c.**

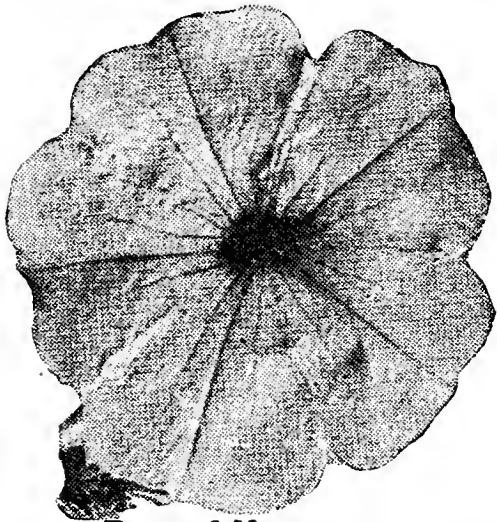

**Petunia—  
Giants of  
California**

### ROSE OF HEAVEN

**Rich Brilliant Rose Color with an Inconspicuous White Throat**

A clear rosy pink flower of good size and very beautiful. The throat is nearly the same color as the petals, very few having the white throats so common in most pink Petunias. While not as large a flower as my wonderful Balcony Queen Petunias shown on page 30, they are much larger than the Rosy Morn, which we have all known and grown for many years. A bed of Rose of Heaven Petunias is unusually attractive, and as they remain in bloom all summer, gives a delightful touch of color to a yard that might otherwise be dull and dreary. **Pkt., 100 seeds, 10c; 1-8 oz., 48c; 1-2 oz., \$1.40.**

**Rose of Heaven**

### FLUFFY RUFFLES

**Beautiful Colors—Heavily Frilled and Ruffled—Large Size—Easy to Grow—Sure to Bloom**

The originators of this wonderful strain of Petunias claim that the flowers will average 4 to 6 inches in diameter, but I am content in claiming a size of about 3 inches. However, the flowers are so heavily frilled that a blossom 3 inches in diameter is often 20 inches or more in circumference. Fluffy Ruffles commences to bloom very early, and continues in flower all through the summer until frosts kill the plant to the ground. Easily cultivated. All you need is a good soil and sunny location. **Pkt., 200 seeds, 12c.**

**Haines Fluffy Ruffles**

### PETUNIA PLANTS

So many of my friends have inquired for Petunia Plants, that I am this year growing the most popular varieties.

**Monster Giants. 3 for 45c; \$1.45 per doz.**

**Dwarf Giants of California. 3 for 45c; \$1.50 per doz.**

**Elks Pride. 3 for 45c; \$1.45 per doz.**

**Rosy Morn. 3 for 30c; \$1.10 per doz.**

**HAINES BEAUTIFUL PETUNIAS****FANCY FRINGED DOUBLE**

**My Double Petunias Have Made Me More Friends Than Any Other Flower I Grow**

A mixture of the best large flowering and fringed double Petunias. It embraces a wide range of colors and shows finer combinations than we have heretofore found in any double Petunias including delicate mauve, porcelain blue, white, garnet and velvet shades. This carefully hybridized seed will yield a larger percentage of double flowers than any other. **Pkt., 60 seeds, 14c.**

**NEW GOLDEN ROSE**

**Brilliant Orange Rose Color, with a Lighter Shade of Yellow in the Throat**

This unusual color surely deserves a place with the finest novelties, as it is entirely different from any I have ever grown or seen. The orange rose color is the same throughout the flower, except that the throat is a lighter shade of yellow. In size, it is about the same as the other out of doors bedding varieties, with which we are all familiar. Its color is its greatest charm, and I can confidently recommend it to all. **Pkt., 150 seeds, 12c; 1-8 oz., 44c.**

**NEW TRAILING PETUNIA**

**Creeps On the Ground—Fine for Rockeries and Similar Places**

Everyone who grows Petunias should give this new variety a trial. A charming little Petunia with many long slender branches creeping out over the ground, covering a space 3 feet or more in diameter. The colors include a crimson with violet throat, quite fragrant and borne by the hundred. I know of no other Petunia which will produce one-half so many flowers as this. Splendid for hanging pots or baskets as well as for the garden. It is a very showy and attractive novelty. **Pkt., 100 seeds, 8c; 1-8 oz., 30c; 1-2 oz., 90c.**

**NEW DWARF GIANTS of CALIFORNIA**  
**Mammoth Flowers and Beautiful Colors, with Throats Veined and Marked in Every Conceivable Manner. All are Heavily Frilled and Ruffled**

Here we have the same mammoth flowers and marvelous colors, we have grown to like so well in the original of this type; this being a dwarf strain of the well known Giants of California. Flowers are of the largest size, heavily frilled and ruffled, and are well opened showing off the beautifully veined and marbled throats to perfection. The plants are so very dwarf that they may also be grown as pot plants with the best of results. For porch boxes and for bedding my Dwarf Giants of California are unequalled. **Pkt., 150 seeds, 15c.**

## HAINES CALIFORNIA GIANTS ZINNIAS

Fully as large as the Dahlia Flowered, they are of the true Zinnia type, flat without the conical center, being nearly a solid face with loosely placed petals. I have grown flowers fully 5 inches in diameter. Plants are of robust habit, attaining a height of about 3 feet, and should be given 18 to 24 inches between each to allow for full development; they bear numerous semi-globular mostly very double flowers on long, strong stems, all of the largest size, making them of great value in large beds, borders, etc., grown under favorable conditions they remain in bloom from early summer to late autumn. I offer the colors separately, as well as a splendid mixture of many colors.

**LEMON QUEEN.** This is of immense size, color light canary on the upper and cerise on the lower side. It is also unique inasmuch as it carries a pleasant odor. **Pkt., 50 seeds, 10c; 1-8 oz., 39c.**

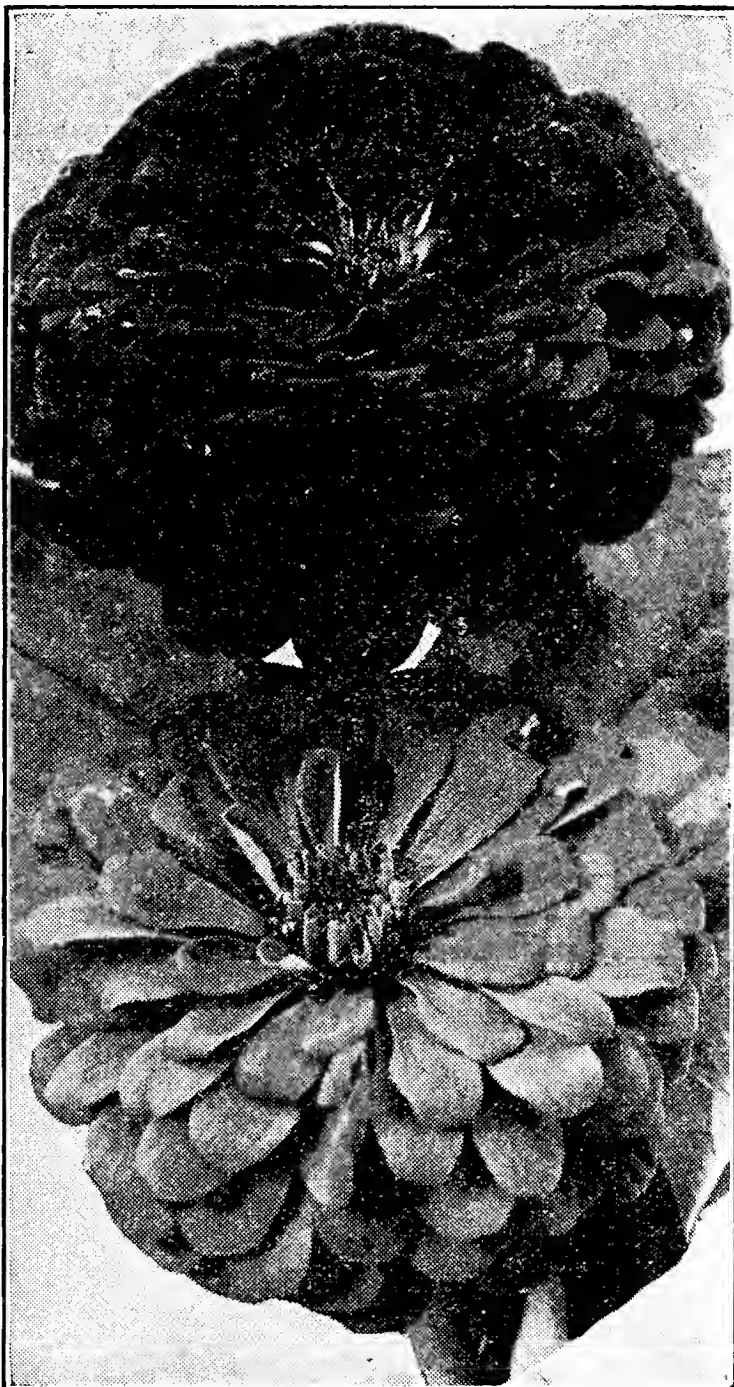

**ORANGE KING.** This is a striking shade and can be compared favorably with the color of the Calendula from which it takes its name. **Pkt., 50 seeds, 10c; 1-8 oz., 39c.**

**PURITY.** Like the Dahlia Flowered Polar Bear, this is a clear white. It has lost the greenish tint that has made white Zinnias unpopular in the past. **Pkt., 50 seeds, 10c; 1-8 oz., 39c.**

**ROSE QUEEN.** This flower opens first as bright rose with a deep rose red center and gradually develops into a warm deep rose when in full bloom. **Pkt., 50 seeds, 10c; 1-8 oz., 39c.**

**COLLECTION.** One packet each of the four colors described above for only 35c.

**MIXED.** The above four colors mixed in equal proportion make a splendid show of bright colors. **Pkt., 50 seeds, 8c; 1-8 oz., 34c; 1-2 oz., \$1.00.**

California Giants Zinnias

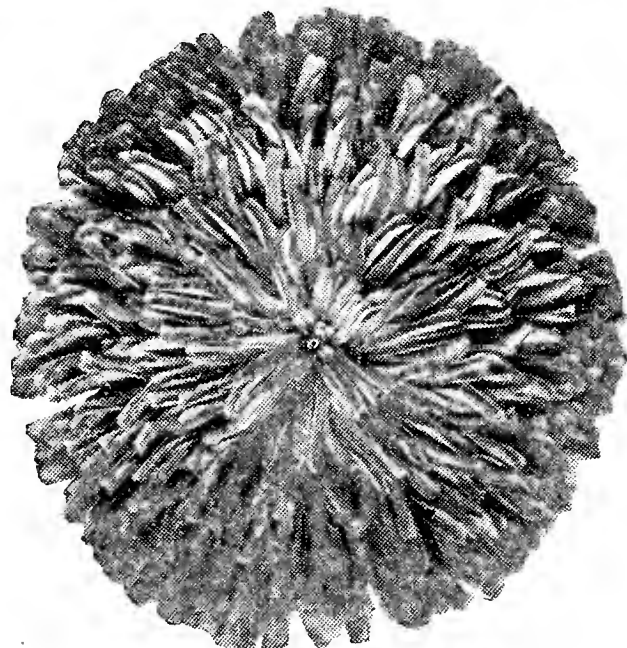

**THREE UNUSUAL ZINNIAS FOR 1933****One Packet of each for only 21 cents****Mexican or New Star Zinnias****HAINES WONDERFUL NEW ZINNIAS****Each are Distinct Types and Should be in Every Garden**

There is much satisfaction in a bed of Zinnias with their large flowers of bright colors, and when nearly every other flower has been killed by frost this plant is still in full bloom. Few flowers are more easily grown or bloom more abundantly. Sow the seed in open ground. When the young plants are 1 to 2 inches high, thin to 6 inches apart.

**VICTORY  
QUILLED OR  
CACTUS  
FLOWERED****Attractive Petals so Tightly Curled as to Resemble Quills**

It is distinct from all other Zinnias by the shape of its petals which are tubular at the base and expand toward the tip, displaying a rich variety of color. On the reverse side of the petals the color runs into a softer tint, making a beautiful combination. **All colors mixed.**

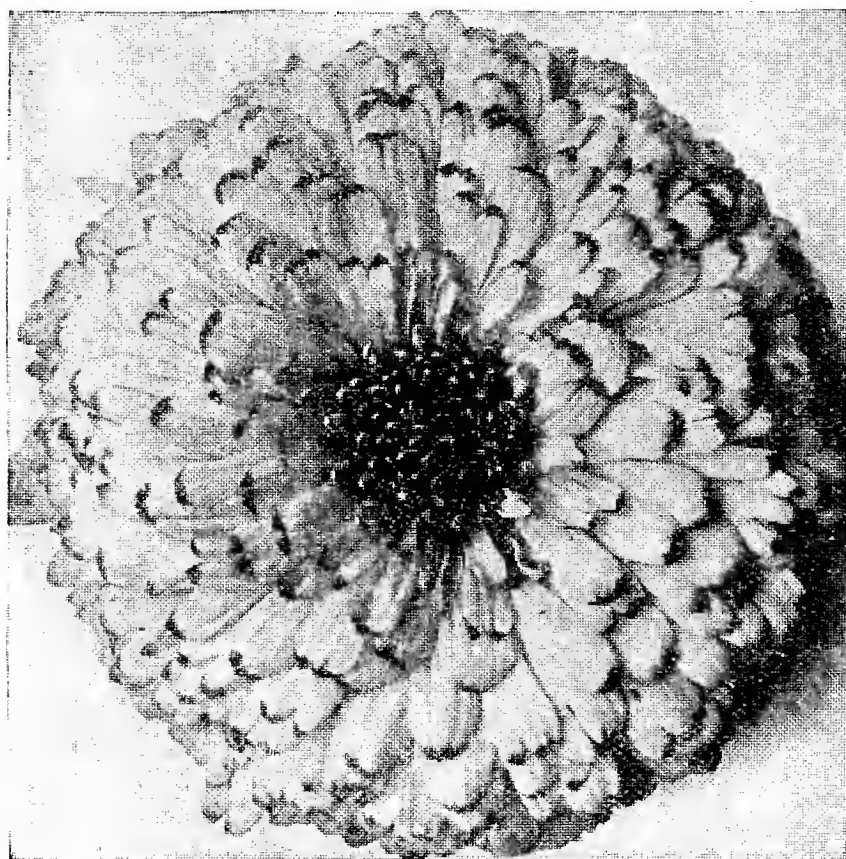

**Pkt., 50 seeds, 10c; 1-8 oz., 28c; 1-2 oz., 84c.****Victory Quilled Zinnia****MEXICAN OR NEW STAR****An Unusual Variety of Single Star Shape Flower**

This new and beautiful flower is the only Zinnia ever grown which comes absolutely single and when open shows the true star shape. It is peculiar in its construction; not double, not single—as the word is usually interpreted—nor yet could it be called crested. It must be seen to be appreciated.

Flowers are of good size, usually 2 inches in diameter and of good intense colors. Nearly every color known is there from crimson to white, beside color combinations. Petals are rich and velvety, and appear almost artificial in their perfection. Plants are dwarf, and hold the flower stem erect, presenting a beautiful appearance. **Pkt., 100 seeds, 8c; 1-8 oz., 24c; 1-2 oz., 75c.**

**NEW PICOTEE****Every Petal Beautifully Tipped**

A remarkable and beautiful new type of Zinnias developed in California. The flowers are always of the largest size, measuring 4 to 6 inches in diameter. The blooms come in many bright colors—pink, light and rich yellow, orange, etc., and all are tipped rich mahogany brown on the end of each petal.

**Pkt., 50 seeds, 10c; 1-8 oz., 24c, 1-2 oz., 72c.****New Picotee Zinnia**

## GLORIOUS AFRICAN DAISIES

**BLUE** (Agathea)—The flower is the very counterpart of the Paris Daisy, and it is sky blue, with a blue disc. It makes a very pretty object for summer decoration in the flower garden, of easy growth, and the plant may be had in flower all the year round. It is allied to Cineraria, and requires about the same treatment. A fine winter bloomer, 3 feet high. **Pkt., 100 seeds, 10c; 1-8 oz., 28c; 1-2 oz., 84c.**

**ORANGE** (Dimorphoteca)—Dwarf branching plant, about 12 inches high. Daisy-like flowers 2½ inches across, ranging through all the shades of yellow. Can be grown either in pots or in the garden. **Pkt., 50 seeds, 10c; 1-8 oz., 20c; 1-2 oz., 60c.**

**CRIMSON** (Gerberi)—Also called the Transvaal Daisy. One of the rarest of the Daisies, and one which can be grown out of doors in the summer or in pots in the house during the winter. The flower stems are 2 feet long, and are very graceful, bearing a large daisy-like blossom, which is 3 to 4 inches across. The flower petals have a velvety texture which, added to the rare color and size, make it most desirable. There are many new shades in this rare hybrid mixture, the beautiful crimson in particular. **Pkt., 15 seeds, 15c.**

Think of planting seeds of Roses, and then in a few short months having Roses in bloom. Sounds unreasonable but that's what you may expect from this marvelous plant, which

is one of the most unique and novel pot flowers grown. The only genuine dwarf variety, blooming in four or five months after sowing the seeds, giving about equal proportions of single, semi-double and double flowers, borne in clusters and contain all the tints and colors of cultivated Roses, so that seed sown in February in the house may be had in bloom in June in the open ground where they continue to bloom throughout the season. **Pkt. of 10 berries (about 50 seeds), 10c; 1-8 oz., 36c.**

They will blossom equally well as plants in the garden during the summer, or as pot plants in the home in the winter. Plant liberally this year—a packet will give you many blossoms all summer, but  $\frac{1}{8}$  ounce is not too much for even a small yard. **Pkt., 100 seeds, 10c; 1-8 oz., 36c; 1-2 oz., \$1.05.**

**SNAPDRAGON—Haines New Giant Sweet Scented****Beautiful New Varieties Which Should Be In Every Garden**

Giant Snapdragons have become immensely popular in the last few years. This is not to be wondered at, as there are few flowers which for gorgeous coloring can match this Snapdragon and are as valuable for cut flowers as for show in the garden. The plants grow 2½ feet high, are of healthy, robust growth, with deep green foliage, free and continuous blooming, producing immense spikes with enormous flowers, double the size of the older sort, and of great fragrance. Spring sown seed outdoors produces flowering plants in July, remaining in bloom until frost. For earlier flowering, start indoors and transplant when weather is suitable. Their ease of culture, independence of heat and drought, continuous blooming qualities, and their magnificent, bright colors should entitle these Snapdragons to a place in every garden.

**FIRE KING.** Scarlet. Pkt., 300 seeds, 8c; 1-8 oz., 34c; 1-2 oz., 99c.

**YELLOW BEAUTY.** Pkt., 300 seeds, 8c; 1-8 oz., 34c; 1-2 oz., 99c.

Haines Giant  
Balloon Flowered****Large Double Flowers of Unequaled Colors And Beauty**

An entirely new class of Zinnias, giant in size, measuring 4 to 5 inches across and perfectly double flowers, of richest, most varied colors and shades. Few flowers are more easily grown or bloom more abundantly throughout the season, and the wide range of color is no less remarkable than their unusual depth and richness. Plants grow 3 feet high. There is much satisfaction in a bed of Zinnias with their twisted and recurved petaled flowers in many bright colors and when nearly every other flower has been killed by frost this plant is still in full bloom. Pkt., 100 seeds, 10c; 1-4 oz., 25c; oz., 75c.

It is a healthy, vigorous grower, constantly unfolding fresh fronds of light green that contrast exquisitely with the deep green of the older fronds. It is somewhat like Roosevelt, but decidedly more fluffy, more delicate and beautiful.

THE BEST STRAWBERRIES

Strawberry Plant Orders will be shipped direct from our Strawberry Farms and cannot be shipped with other goods. Send your orders in early—please.

When planting varieties marked (P) it will be necessary to have every third row a Perfect Flowering or (S) variety to properly fertilize the bed; much finer fruit will be obtained by so doing. I have marked after each variety, whether they are early, medium early or late in bearing fruit. I warrant all shipments of Strawberry plants to reach purchaser's hands in good growing condition and when so accepted, no orders will be duplicated or replaced for any cause.

# HARDY SHRUBS AND HEDGE PLANTS

Some of the finest of our ornamental Shrubs are suitable for Hedges and I am giving below the most popular varieties.

## AMOR RIVER PRIVET

Unusually hardy variety and one that can be planted as far North as Canada. Being very bushy, this variety can be trimmed to give any desired effect. Far superior to other and similar hedges as it is not subject to blight. The dark green foliage lasts until late in the Fall. 6 for 46c; doz., 86c, postpaid. Larger size, 6 for 79c; doz., \$1.48, postpaid.

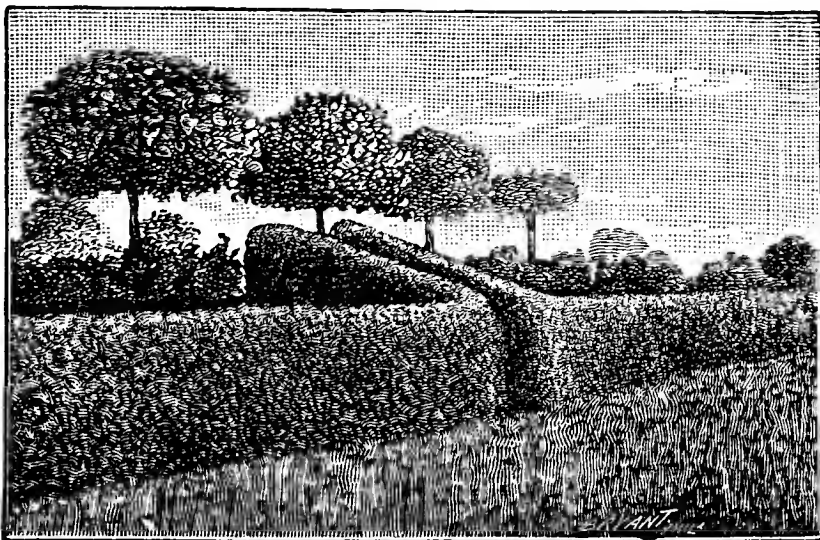

In quantities, can offer good plants at \$6.00 per 100, or an extra large size at \$9.70 per 100 by Express collect.

## CALIFORNIA PRIVET

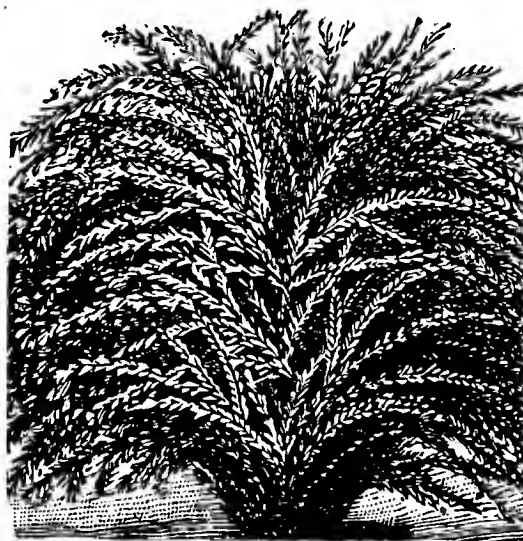

Although this variety is more extensively planted than any other it is not always hardy in the Northern States unless carefully covered or otherwise protected. Will grow anywhere even under the shade of trees. 6 for 42c; doz., 76c; larger size, 6 for 66c; doz., \$1.28, postpaid. In quantities, can offer good plants at \$4.99 per 100, or an extra large size for \$7.99 per 100 by Express collect.

## NEW RED LEAVED JAPANESE BARBERRY

Similar to the Green Leaved Barberry which is so universally grown, either mixed in the shrubbery as specimen plants, as foundation plantings or as straight hedges, you will find the Red Leaved to be the most ornamental you have ever grown. The great beauty is of course in its foliage which resembles Japanese Maples in coloring, which is a lustrous, bronzy-red. In late fall the color changes to orange-scarlet and red shades. Perfectly hardy anywhere. Grows 18 to 30 inches high. 15c each; 3 for 35c; doz., \$1.48; larger size, 24c each; 3 for 68c; doz., \$2.45, postpaid. In quantities can offer good plants at \$8.95 per 100 by Express collect.

## Plant Shipments

**Plant Shipments** I always recommend having plants sent by Express, when there is an Express Office near, as I can usually send somewhat larger plants, and do not have to wash the soil off the roots (as in the case when sent by Mail).

Kindly write your list of plants, bulbs and roots all together (not mixed up with the seeds) so as to prevent any mistake upon the part of our clerks in copying the order. *I do not ship plants to Canada and foreign countries.*

**Please Notice**—Owing to Quarantine Restrictions we Cannot Ship Fruits, Shrubs or Plants to Arkansas; we Cannot Ship Oranges or Lemons to California, Florida, Mississippi or Texas.

**Please order nothing but plants and bulbs on this sheet**
